CORNWELL'S

SELF-FITTING

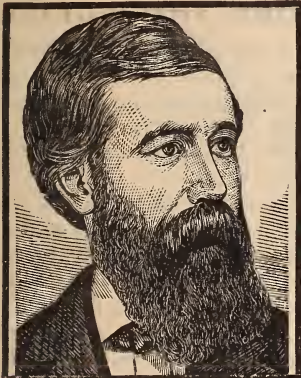

DRESS

CHART

PATT-

ERNS

CATALOGUE

FOR

Fall and Winter, 1872.

Address Letters,

W. CORNWELL,

245 North Eighth Street,

PHILADELPHIA, PA.

GENERAL WESTERN OFFICE, 662 W. Madison Street—Chicago.

To our Patrons

INDUCED BY A CONSTANT DEMAND for our Patterns, and from ladies knowing the value of our cut by our Patent Self-fitting Waist and Shoulder Chart; we are presenting to the Public for the first time, a Catalogue of a few designs of Patterns we are prepared to furnish. These Patterns are cut by our **CHART**, therefore are perfectly proportioned in every particular; and will produce a perfect fitting garment the first time, it is tried on.

To those familiar with the great worth of our Self-fitting Chart, little need be said, and to those unacquainted with its merits we would say, inquire of those who have used it and try our Self-fitting Patterns which are a direct production of it, they needing only to be known to be appreciated.

CORNWELL'S SELF-FITTING CHART AND PATTERNS STAND TO-DAY UNRIVALLED BEFORE THE WORLD,

defying competition. Our Patterns as well as Chart, comprise different Shoulder Measurements, by which any Shoulder, high, low, square or sloping, can be thus accurately fitted. Our method of ascertaining by subtracting the waist measure from the bust measure—the size and shape of the darts necessary to make a garment fit perfectly is absolutely correct mathematically as well as practically; it is the only System in the world that will produce a perfect fitting dress.

This principle with the shoulder measure is secured to us by letters patent. Our Patterns are constantly increasing in variety and besides being new and of the very LATEST STYLES are far superior to all others. Many of them excel in the "make up" the cuts which represent them. We call special attention to our Gents' Shirt Patterns and to our Polonaise and Basques which are unsurpassed in America for style and beauty.

Each separate part is cut with such exactness, that the whole when brought together fits perfectly. Our Patterns are made of paper more than three times the thickness and value of that used by other establishments.

They are of different sizes, so that any one can obtain a suitable Pattern requiring no alteration. On each Pattern is printed our trade-mark cut of Measurement, together with the size, amount of material, trimming, &c., required, directions for cutting and making, the picture of the garment, and the mode of taking the measurements.

HOW TO TAKE MEASURES.

TAKE THE BUST MEASURE loosely over a close fitting waist well supplied with artificial fullness, if any is intended to be worn.

TAKE THE SHOULDER MEASURE from the top of the neck band down the shoulder to the hollow. This hollow can be easily found by slightly raising the arm.

TAKE THE WAIST MEASURE tight, take the length of waist ON THE SEAM under the arm. See measurement cut.

TAKE EXACT MEASURES for all garments, as due allowance for loose-fitting and over garments is made in the Patterns themselves.

For Men's and Boy's Garments, measure over the vest.

For Pants, get the size of the waist and the length of the leg.

For Shirts, get the chest and shoulder measure and the size of the PAPER COLLAR WORN.

Any of the Patterns specified in the within Catalogue can be procured of our Agents, or they will be sent by us post-paid, on receipt of price.

When cutting the cloth, pay no attention to the grain of the paper or the folds in the pattern.

ADDRESS,

WILLETT CORNWELL,

245 N. Eighth Street, Philadelphia, Pa.

GENERAL WESTERN OFFICE, 662 W. Madison Street, Chicago.
